

Multi-Use Poly Bin

CECOR's Multi-Use Poly Bin is ideal for in-plant and interplant bulk handling and shipping of industrial materials and preprocessed food products. This linear low density polyethylene (LLDPE) plastic container weighs less, costs less and is easy to clean. Molded pallet base features optional two-way or four-way entry for easy moving by fork truck.

PA-328 Multi-Use Poly Bin

- **Durable light weight polyethylene.**
