Hand Cleaners

SOY SELECT

AQUA SELECT

CITRUS SELECT

Warsaw Chemical proudly introduces
SELECT CARE Hand Cleaners.

Our first ever industrial hand cleaner line created using renewable natural ingredients.

Concentrated, water-activated formulas were developed with soy, d-Limonene, and walnut shell scrubbers for extra deep cleaning. Dissolves the heaviest soils, such as grease, tar, resins, paints, adhesives, carbon, inks.

Utilizes biodegradable detergents and skin softening ingredients to prevent hands from drying out. Leaves hands soft and smooth.

SELECT CARE . . .

Better care for you. Better care of our environment.
